

Describe Your Rule, let AARVA build it instantly
Or manually configure actions using our drag-and-drop builder.

Send an alert when a VM's disk usage exceeds 80% of its allocated plan.

[Rule Creation](#)

Building Your Rule...

- ✓ Understanding your intent
- ✓ Translate it into a rule logic
- ✓ Building the right logic blocks
- ✓ Preparing a preview for your confirmation

AARVA suggests

Alert me if VM is inactive for 10 days. Alert me if VM is inactive for 10 days.

Send email when VM enters "Error" state.

Send an email alert if a VM is inactive for 10 days or enters an "Error" state.
